Location:

Pandharpur, Maharashtra, India

TECHNICAL SKILLS

Languages

Java, Python, JavaScript, SQL

Java Stack

Core Java, OOPs, Collections, JDBC, Servlets, Spring Boot (basics), Maven

Web

HTML, CSS, JavaScript, Bootstrap, REST APIs, Django

Database

MySQL, SQL Queries & Joins

Tools

Git/GitHub, Eclipse, IntelliJ IDEA, VS Code, Postman

EDUCATION

BCA

KBP College, Pandharpur
2023 – 2026 (Pursuing)

XII (HSC)

Netaji Jr. Sc. College, Mohol
2023 | 63%

LANGUAGES

English | Hindi | Marathi

SOFT SKILLS

Problem-Solving | Team Collaboration
Time Management | Adaptability
Communication

PROFILE SUMMARY

Java Developer with close to **1 year of hands-on experience** in full-stack web and application development. Proficient in Core Java, OOPs, JDBC, and building database-driven applications with Django, MySQL, and REST APIs. Skilled in developing CRUD-based systems, role-based dashboards, and admin panels. Currently strengthening expertise in Spring Boot and enterprise Java development, with a strong record of applying OOP and MVC principles across academic and internship projects.

EXPERIENCE

Intern – Full Stack Development

June 2025 – Jan 2026 (8 months)

CodeSoftech and ByteBrilliance

- Worked on real-world web development projects using **HTML, CSS, JavaScript, Python, Django, and MySQL**, applying OOP concepts directly transferable to Java development.
- Built and maintained CRUD-based modules, authentication systems, and admin dashboards across multiple client-facing applications.
- Collaborated with the development team on both frontend and backend tasks, gaining exposure to structured, production-style coding practices.

KEY PROJECTS

Library Management System (Java Console Application)

Core Java, JDBC, MySQL, OOPs

- Designed a console-based Library Management System applying OOP principles (classes, inheritance, encapsulation) to model books, members, and transactions.
- Used JDBC to connect the Java application with MySQL for storing and retrieving book/member records; implemented issue/return, fine calculation, and search using Java Collections.

Employee Management System

Core Java, JDBC, MySQL, Servlets

- Built an Employee Management System to handle employee records, departments, and salary details with full CRUD operations backed by a MySQL schema.
- Applied inheritance, polymorphism, and interfaces to structure the application into reusable, maintainable modules.

Bank Management System

Core Java, OOPs, MySQL

- Developed a Bank Management System simulating account creation, deposits, withdrawals, and balance inquiry with robust exception handling for invalid transactions.
- Integrated MySQL via JDBC for persistent storage of customer and transaction data.

ACHIEVEMENTS & CERTIFICATIONS

- Participated in National Level Programming Competition (UG Group) – Dexter Innofest 2024-25, Dept. of Computer Science, PAH Solapur University (March 2025).
- Certified in Python Programming & Web Development through recognized online platforms.
- Actively learning Core Java, Spring Boot, and DSA to advance into enterprise Java/full-stack development.

POSITION OF RESPONSIBILITY

Member – Technical Society

Aug 2025 – Present

KBP College, Pandharpur

- Assisted in organizing workshops and technical sessions on Python and Web Development for 200+ students.
